MisuraEmme®

Made
in
Italy

Materiale pregiato, che evoca tradizione e suscita emozioni. Valore aggiunto che sottolinea la manualità della confezione e ne esalta la qualità e l'eleganza al di là del tempo e delle mode.

Mani capaci di rispettare la tradizione,
mani orgogliose di produrre Made in Italy.

Hands respectful of tradition,
hands proud of developing Italian made products.

A precious material that is reminiscent of tradition and evokes emotions. An added value that highlights a handcrafted construction and enhances a timeless elegance that transcends fashion trends.

the new Concept

Accostamenti materici decisi e finiture dal forte impatto esaltano le linee rigorose e i profili essenziali del vivere contemporaneo, tra attitudine innovativa e ricerca stilistica. Nel segno di una sartorialità senza confini che definisce nuovi codici progettuali. Inedite laccature ed essenze sofisticate avvolgono le atmosfere su misura.

Bold combinations of materials and finishes with a strong impact enhance the rigorous lines and essential profiles of contemporary living proposals, distinguished by innovative attitude and stylistic research. In the sign of a limitless bespoke appeal that defines new design codes. New lacquers and sophisticated essences dress the tailor-made atmospheres.

MOODBOARDS

CREARE UN MOODBOARD SIGNIFICA COSTRUIRE UN RACCONTO BEN STRUTTURATO, DOVE NULLA È LASCIATO AL CASO, CON IL PRECISO SCOPO DI COMUNICARE UN PARTICOLARE MESSAGGIO. POTREMMO, IN ALTRE PAROLE, DEFINIRE IL MOODBOARD UNA NARRAZIONE VISIVA VOLTA A FOCALIZZARE, CHIARIRE E ORGANIZZARE IL PROCESSO CREATIVO, IN MODO DA STRUTTURARE L'IDEA CHE SI È AVUTA E DARLE COSÌ MAGGIORE FORZA.

CREATING A MOODBOARD MEANS BUILDING A WELL-STRUCTURED STORY, WHERE NOTHING IS LEFT TO CHANCE, WITH THE EXPRESS PURPOSE OF COMMUNICATING A PARTICULAR MESSAGE. IN OTHER WORDS, WE COULD DEFINE THE MOODBOARD AS A VISUAL NARRATIVE AIMED AT FOCUSING, CLARIFYING AND ORGANIZING THE CREATIVE PROCESS, IN ORDER TO STRUCTURE THE IDEA THAT HAS ARISEN AND THUS GIVE IT GREATER STRENGTH.

PELLI LISCE

SMOOTH LEATHERS

100% pelle / leather
100% LE - pelle / leather

La manutenzione è molto semplice: basta un panno umido ed un sapone neutro.

Pelle bovina mezzo fiore a grana naturale. Tintura passante; rifinizione con resine e pigmenti. Articolo con mano morbida, tatto ceroso e aspetto semiopaco.

Resistenza al fuoco: TB 117 EN 1021
Trattamento ignifugo opzionale: BS 5282

Consigliato per
Suggested for

Maintenance is very simple: a damp cloth and neutral soap are enough to clean the surface.

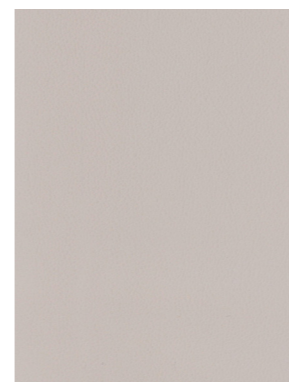

Bovine of European origin, lightly buffed natural grain. Through dyed; finishing with resins and pigments. Article with a pigmented and protective coat, with a soft, waxy feel and semi-matt appearance.

Flame retardant: TB 117 EN1021
Treatment option: BS 5282

PELLI LISCE PRIMALINEA

PRIMALINEA SMOOTH LEATHERS

100% pelle / leather
100% LE - pelle / leather

Nappa realizzata su tori di provenienza europea, dalle proprietà Antibatteriche e Antivirali grazie all'innovativo trattamento brevettato in riconcia e rifinitura.

Le pelli, con tintura passante, vengono sottoposte ad un processo di asciugatura tramite essiccazione sottovuoto, che conferisce loro un aspetto liscio di ineguagliabile eleganza, dosando emozioni che si trasferiscono nel tatto esaltato da una mano piena, calda e setosa.

La manutenzione è molto semplice: basta un panno umido ed un sapone neutro.

Consigliato per
Suggested for

Nappa leather made on bulls of European origin. This article is produced with patented innovative tanning and finishing treatment.

The leather, fully dyed through, is vacuum dried which conveys a smooth and flat appearance of great elegance capable of adding a flourish excitement, also thanks to the warm and full silky touch enhanced by the compactness of its structure.

Maintenance is very simple: a damp cloth and neutral soap are enough to clean the surface.

PELLI SCAMOSCIATE

SUEDE LEATHERS

100% LE - pelle / leather

La pelle scamosciata, detta anche *Suede*, si caratterizza per la realizzazione ed il trattamento. Molto apprezzata per la sua morbidezza, eleganza e versatilità.

Per l'ordinaria pulizia di questa pelle è consigliato l'utilizzo di spazzole con setole in gomma; per l'eliminazione di macchie, invece, si suggerisce di strofinare un panno leggermente umido con una piccola quantità di aceto bianco. Consigliata per retro poltrone, pouff e cuscini, non adatta per le sedute.

Consigliato per
Suggested for

CUOIO

THICK LEATHER

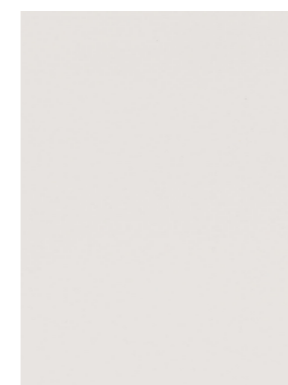

100% pelle / leather

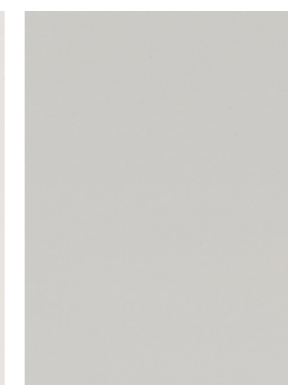

Il cuoio ha caratteristiche di resistenza e soprattutto igieniche molto elevate che lo rendono particolarmente adatto alla produzione di molti manufatti di uso comune. Questo materiale viene ricavato dalle pelli grezze che subiscono le cosiddette operazioni di riviera come la depilazione e la calcinazione. In seguito la pelle viene conciata. La sua particolare struttura, costituita da un intreccio tridimensionale di fibre collagene, una proteina, fa sì che il cuoio abbia anche proprietà termoisolanti. È un materiale dalla lunga storia e dalle lunghe lavorazioni.

Thick leather is extremely resistant and hygienic, qualities that make it particularly suitable for the production of a range of day-to-day products. The material is extracted from raw skins, which undergo treatments such as hair removal and calcination. The hide is then tanned. The unique structure of the material, which is composed of a three-dimensional weave of fibres of collagen – a protein – makes the thick leather a good heat insulator. This is a material with ancient history that requires a long processing phase.

MARMI

MARBLES

Le venature, la delicatezza delle colorazioni e la sua particolare lucentezza, lo rendono uno dei materiali più scelti per il rivestimento di qualsiasi tipologia di superficie. La durezza e la resistenza fanno del marmo una tra le pietre più pregiate e, per questo motivo, sempre scelto tra le pietre presenti in commercio. L'eterogeneità delle lastre di marmo è garantita dalla sua completa naturalezza, altresì non è possibile ottenere identiche colorazioni, le quali dipendono dalla presenza di vari tipi di minerali.

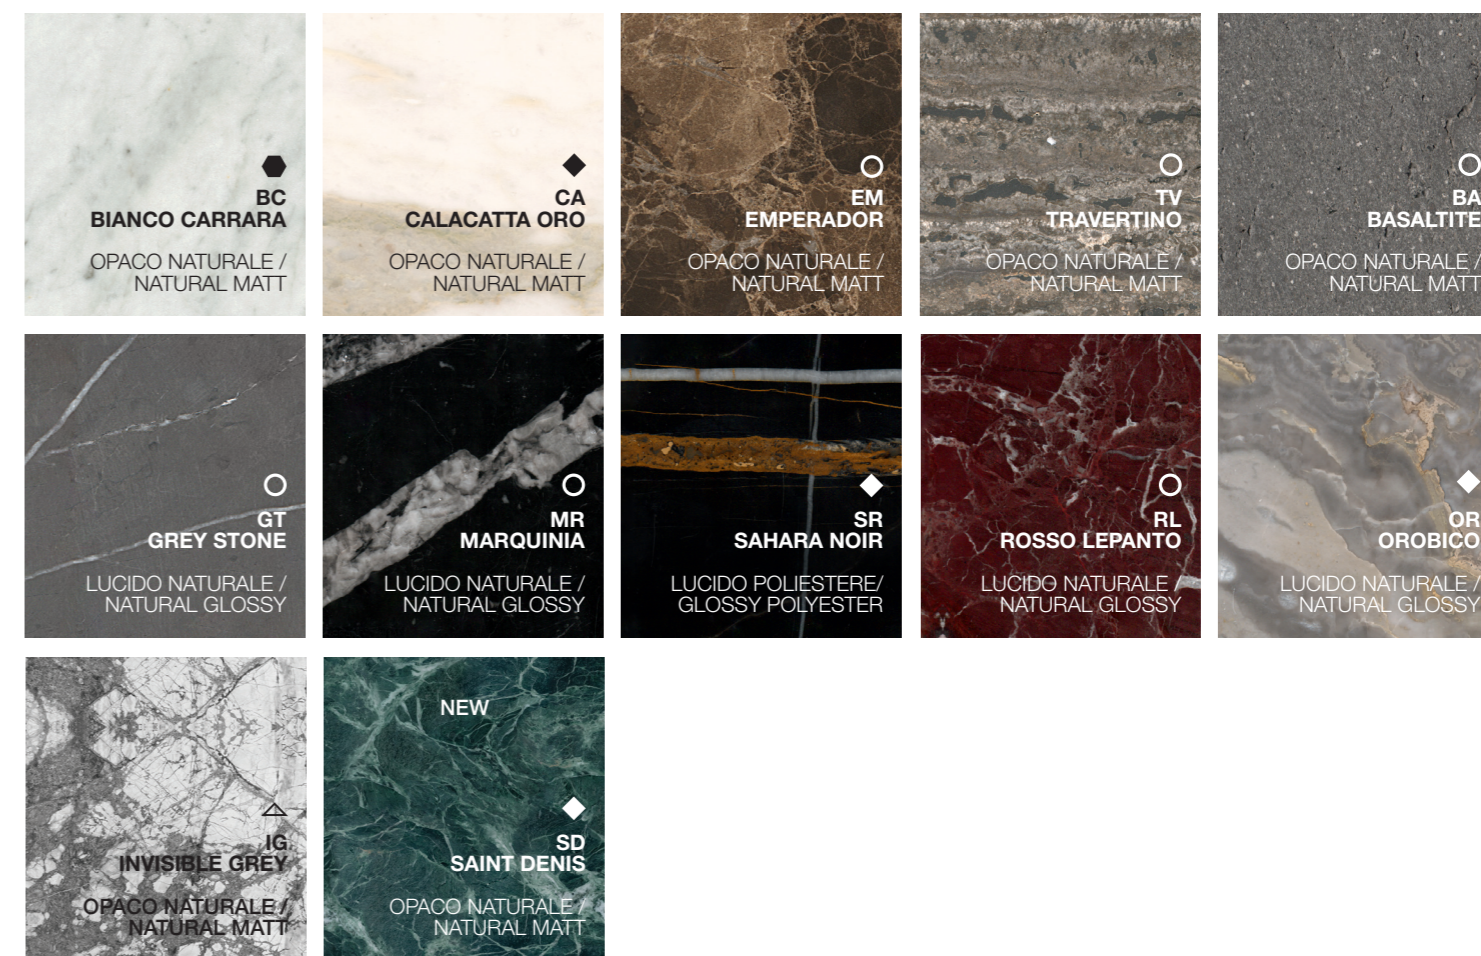

Marble's veining, delicate colouration and unique shine make it one of the most popular materials for all kinds of surfaces. Marble's hardness and resistance make it one of the most prized stone in the world, and it is perennially popular on the market. Marble is a natural material and as such each marble tile is different - it is impossible to obtain identical colouration, as this depends on the range of minerals present in the marble.

Ogni lastra di marmo, pur essendo parte dello stesso blocco, è sempre diversa dall'altra. E' tecnicamente impossibile garantire tra un lotto di produzione e l'altro l'uniformità delle lastre.

Every marble tile is different, even when cut from the same block. It is technically impossible to guarantee uniformity between tiles in two different production batches.

TECNO-MARBLE

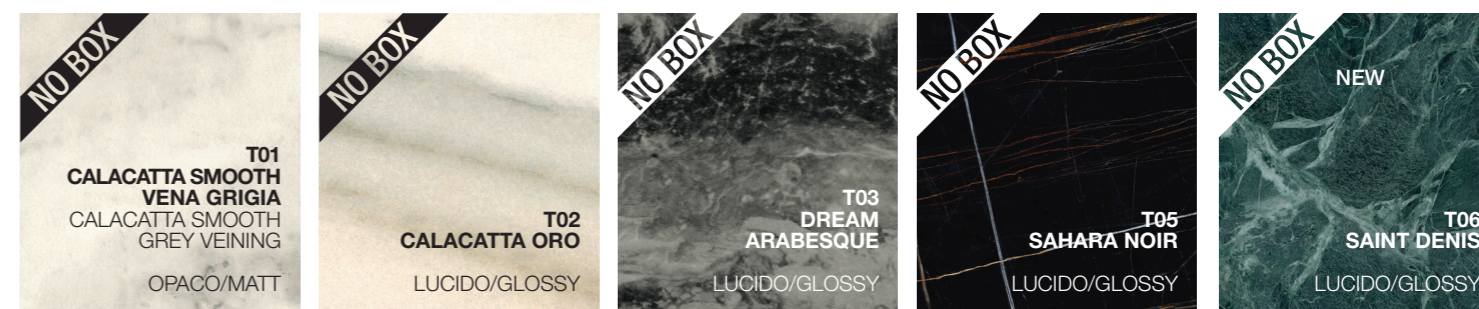

TECNO-MARBLE

Questa ceramica è ottenuta partendo da impasti di argille, sabbia ed altre sostanze naturali. Tra le caratteristiche più salienti del grès porcellanato troviamo anche l'elevatissima resistenza all'abrasione, ovvero la resistenza che la superficie oppone alle azioni connesse con il movimento di corpi, superfici o materiali a contatto con essa.

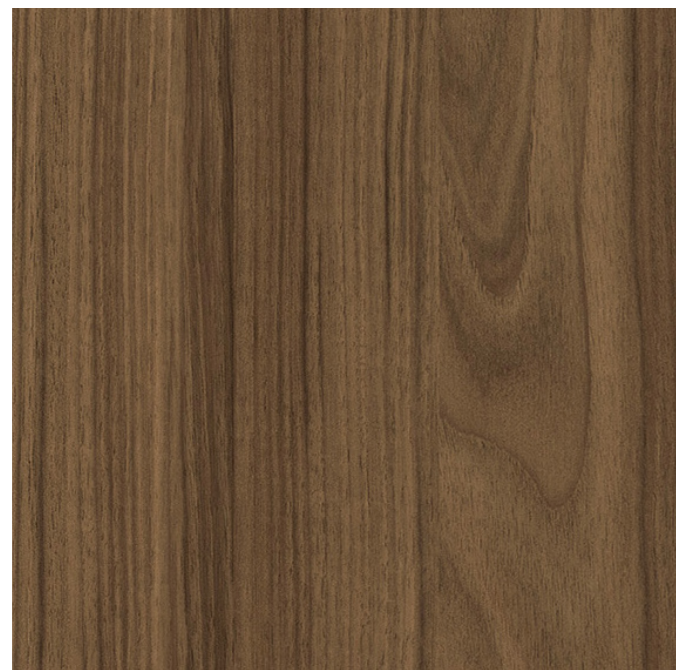

The ceramic used for the tiles is extremely compact, this makes them exceptionally resistant. It is made from a mixture of clay, sand and other natural substances. One of the key characteristics of porcelain stoneware is its elevated resistance to abrasions, meaning that it is largely unaffected when bodies, surfaces or materials come into contact with it.

NOBILITATI

MELAMINES

Una collezione di decorativi disponibili per pannelli in truciolare e MDF, bordi e laminati che attraverso eleganti finiture appositamente studiate, ricrea esperienze tattili e visive uniche.

Le texture legno riprendono le torsioni e le linee delle venature dell'essenza, la texture cemento esprime il minimalismo e la ruvidità di questo materiale, Il primo fiore rispecchia la lavorazione e l'imperfezione della vera pelle, le texture tessili sono decori raffinati caratterizzati da un effetto a maglia morbida e i colori metallizzati raffigurano il lusso con il loro colore brillante e scintillante.

A collection of decorative elements available for chipboard and MDF panels, edges and laminates recreates unique tactile and visual experiences through elegant finishes specially designed.

Wood textures recall the twists and lines of the essence grain; concrete texture expresses the minimalism and roughness of this material; PrimoFiore reflects the workmanship and imperfection of real leather; textile textures are refined decorations characterized by a soft knit effect and metallic nuances which depict luxury with their bright and shimmering colors.

ESSENZE

VENEERS

Quando si parla di legno per la costruzione di mobili si parla spesso di essenza che può essere di noce, ciliegio, rovere ed olmo, per citare quelli più impiegati. Queste vengono definite essenze pregiate e vengono usate per le parti a vista mentre per la struttura si usano essenze più comuni. Eventuali variazioni di tonalità e di venature non costituiscono difetto, testimoniano invece l'utilizzo di materiali naturali e lavorazioni effettuate con cura artigianale.

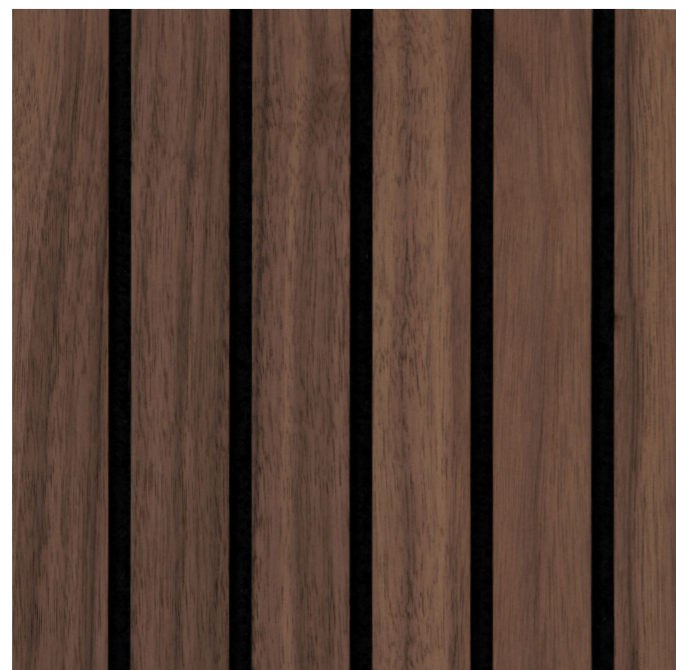

Types of wood used for the construction of furniture include walnut, cherry, oak and elm, to cite the most popular varieties. These sought-after woods are used for visible parts of furniture, while more common types are used for structural sections. Any variation in terms of colour and veining is not seen as a defect, but rather serves as proof that it is a natural material that has been processed using artisanal techniques.

Per applicazioni ed utilizzo dei materiali qui menzionati consultare i listini prezzi in vigore
For application and use of materials please check the current price lists

DOGATI

SLATTED

Un disegno che si ripete all'infinito, un gioco di pieni e vuoti geometrici che donano verticalità alle superfici di utilizzo. Il motivo dogato può essere in essenza con vene verticali o laccato.

A design that repeats endlessly, a game of geometric solids and voids that give verticality to the surfaces. The staved motif can be made in wood with vertical veins or lacquered.

SUPERFICI MATERICHE

TEXTURED SURFACES

Un materiale dall'aspetto solido, materico e ruvido al tatto. Questa finitura è caratterizzata da una bicromia su fondo bianco con granelli scuri disposti omogeneamente.

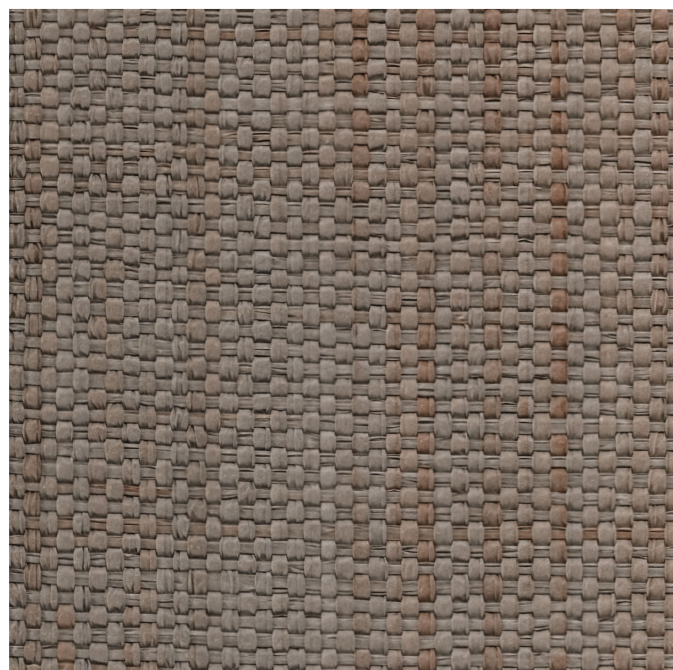

A material with a solid, material and rough feel. This finish is characterized by a two-tone on a white background with dark grains evenly arranged.

Per applicazioni ed utilizzo dei materiali qui menzionati consultare i listini prezzi in vigore
For application and use of materials please check the current price lists

PAGLIA INTRECCIATA

WOVEN STRAW

L'autenticità della natura espressa attraverso un materiale naturale e tattile.
La paglia intrecciata si presenta come una texture capace di creare un'atmosfera
accogliente e avvolgente in qualsiasi spazio.

*The authenticity of nature is expressed through a natural and tactile material.
Woven straw presents figures as a texture capable of creating a welcoming and enveloping
atmosphere in any space.*

Per applicazioni ed utilizzo dei materiali qui menzionati consultare i listini prezzi in vigore

PRODUCT EVOLUTION

<p>"Works of furniture"</p> <p>Artisan origins have favoured the development, evolution and affirmation of Italian works of furniture. Strictly hand processed furnishings are characterized by the direct application of decorative inlays.</p>	<p>Internationalization</p> <p>In the 2000s, the timeless and painstaking contribution to the values of "Made in Italy" has made MisuraEmme a source of a series of successes and recognitions, both domestically and internationally. Initially, by expanding its participation in trade fairs worldwide, and more recently, with a decisive internationalization policy.</p>	<p>"Tailor made"</p> <p>MisuraEmme offers customers the opportunity to customize their workspaces and living systems, overcoming architectural obstacles in modern homes thanks to the engineering of systems that can be tailored to the millimeter. The end customer has the possibility to define colors and finishes thanks to the remarkable versatility of the collection.</p>
<p>Art in Design</p> <p>During the 70s and in collaboration with the architect Dal Lago, Tidona Mascheroni became one of the first furniture manufacturers to experiment with the matching of research and cultural experiences drawn from architecture and the visual arts.</p>	<p>Our values</p> <p>At MisuraEmme, today's sheer size and industrial potential are the fruits of a heritage gradually developed over time. A long period dedicated to having a knowledge of numerous requirements, capable of transforming a business into a great brand. All MisuraEmme products are original creations, completely made in Italy.</p>	<p>Cleaning Technology</p> <p>For MisuraEmme productivity and respect for the environment are inseparable concepts. MisuraEmme is the first company in the furniture sector in Italy to have installed a painting plant with low environmental impact with MGS technology TM, taking advantage of products completely water based.</p>
<p>The Masters</p> <p>As part of its transformation in 1979, the company collaborated with internationally acclaimed designers, integrating its compositions with highly prestigious accessories. Table, chair, bookcase and furnishing accessory collections were created.</p>	<p>Multimaterials</p> <p>The choice of materials is an important phase in the production process, and the company selects materials of excellent quality - from marbles sourced from the quarries of Carrara to solid oak wood, passing through Made in Italy fabrics or European leathers, processed in Italy, up to the new natural and material materials such as woven straw, eco-sustainable cellulose, and natural concrete.</p>	

La storia del nostro percorso è unica e inimitabile, saperla raccontare in modo avvincente e stimolante ci permette di creare una connessione emotiva con il nostro target.

The story of our path is unique and inimitable, knowing how to tell it in a compelling and stimulating way allows us to create an emotional connection with our target.

DECLINAZIONI DI BRANDING

BRANDING FEATURES

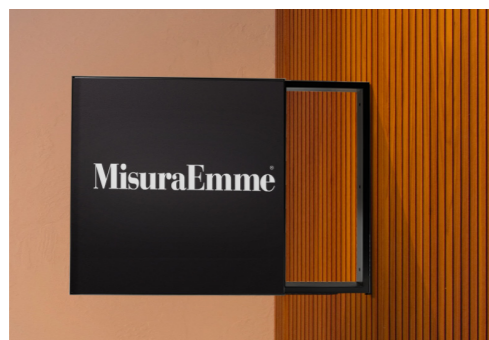

MisuraEmme® ha elaborato soluzioni in grado di conferire un'identità distintiva e una notevole impronta emozionale ai propri showroom monomarca e agli spazi espositivi dei suoi rivenditori. Ogni elemento è stato curato con attenzione per rappresentare fedelmente l'essenza del marchio. In questo modo, ogni ambiente diventa un'autentica espressione del brand MisuraEmme®, creando un'esperienza unica e coinvolgente per chiunque varchi la soglia di questi spazi straordinari.

MisuraEmme® has developed solutions capable of bestowing a distinctive identity and a significant emotional impact on its monobrand showrooms and the display spaces of its retailers. Each element has been carefully curated to faithfully represent the essence of the brand. In this way, every environment becomes an authentic expression of the MisuraEmme® brand, creating a unique and engaging experience for anyone who enters these extraordinary spaces.

BANDIERA BIFACCIALE

DOUBLE-SIDED FLAG

MisuraEmme® ha elaborato una bandiera bifacciale illuminata, progettata per essere visibile sia di giorno che di notte, elemento di branding distintivo e accattivante che enfatizza il marchio dell'azienda anche all'esterno.

MisuraEmme® has developed an illuminated double-sided flag, designed to be visible both day and night, a distinctive and captivating branding element that emphasizes the company brand even externally.

E CARATTERISTICHE TECNICO-FUNZIONALI, GRAZIE ALLA CONSULENZA DI
PROFESSIONISTI COMPETENTI.

A PLACE TO SEE MATERIALS IN REAL FORM, TO KNOW THEIR PECULIARITIES AND
TECHNICAL-FUNCTIONAL CHARACTERISTICS, THANKS TO THE ADVICE AND SUGGESTION
OF COMPETENT TEAM.

184 _ MATERIOTECA / MATERIAL LIBRARY

186 _ ISOLA DI LAVORO / FREESTANDING WORKSTATION

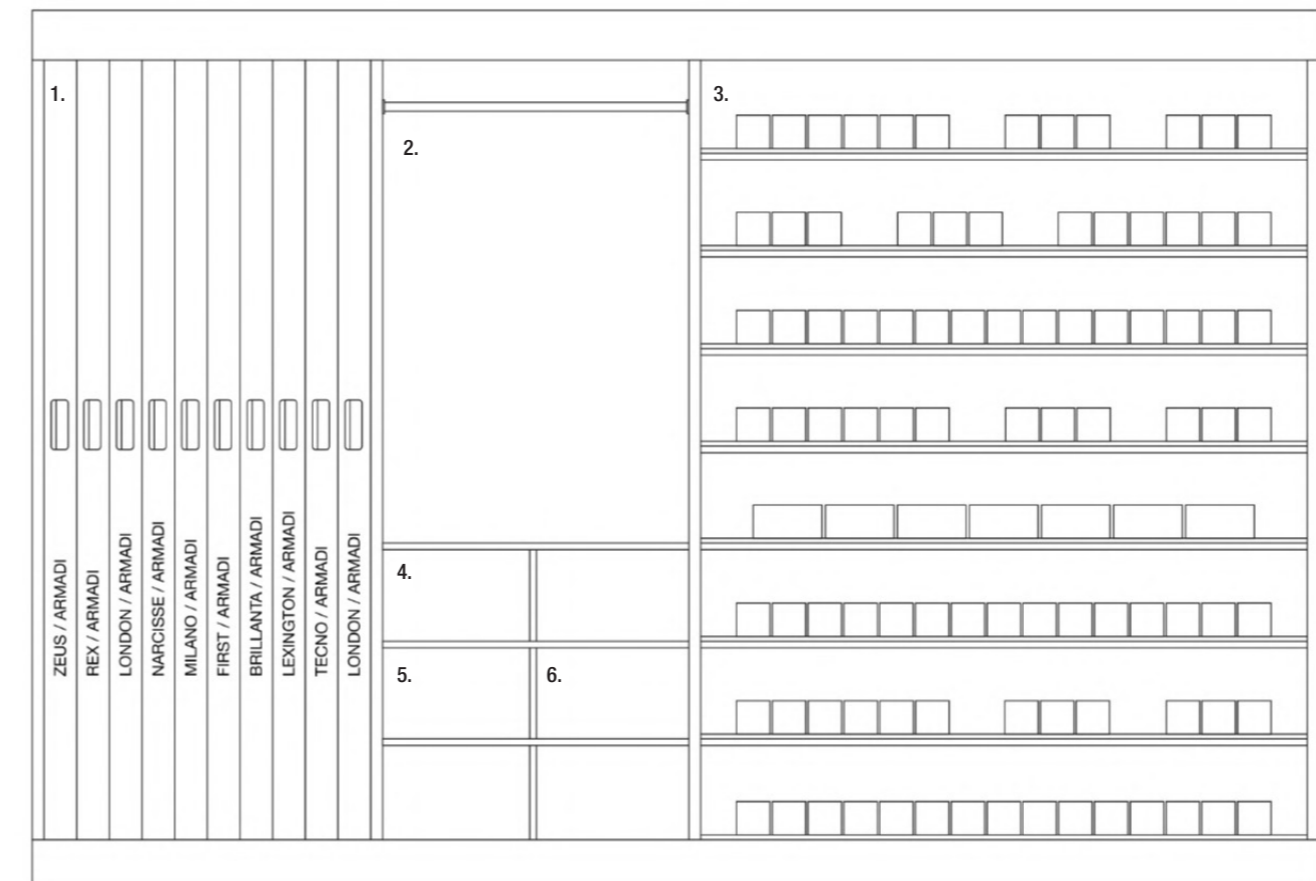

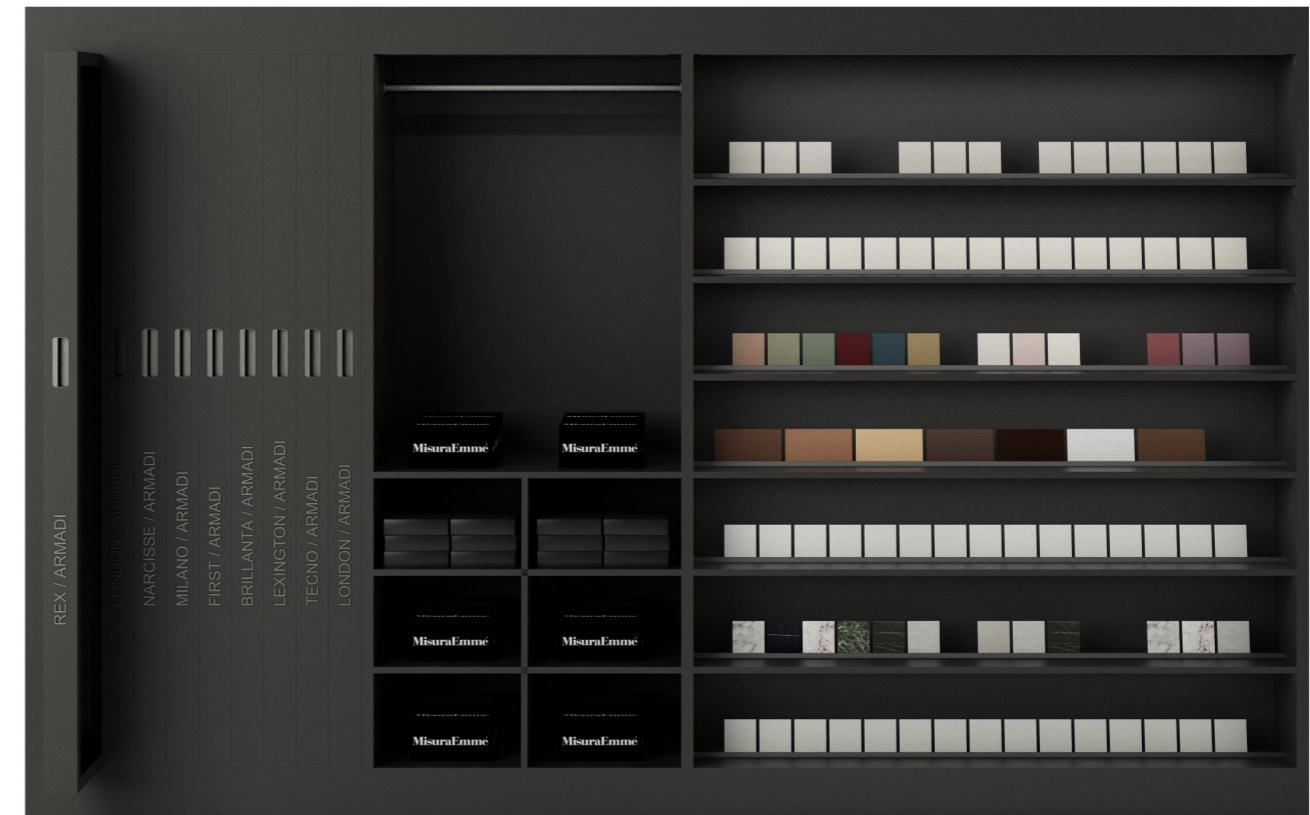

MATERIOTECA

MATERIAL LIBRARY

La materioteca è incredibilmente utile perché permette di sperimentare tante possibilità di arredo, provando accostamenti cromatici e materici e valutandone il risultato d'insieme. Uno strumento che esalta la dimensione tattile e percettiva: invece di scegliere basandosi soltanto sui cataloghi, si vedono e toccano direttamente gli elementi esposti.

The "Materioteca" a library with materials and samples in display, is incredibly useful because it allows you to test with many combinations, trying chromatic and material solutions and evaluating the overall result. A tool that enhances the tactile and perceptual dimension: instead of choosing based only on catalogs, you see and touch directly the real elements.

ISOLA DI LAVORO

FREESTANDING WORKSTATION

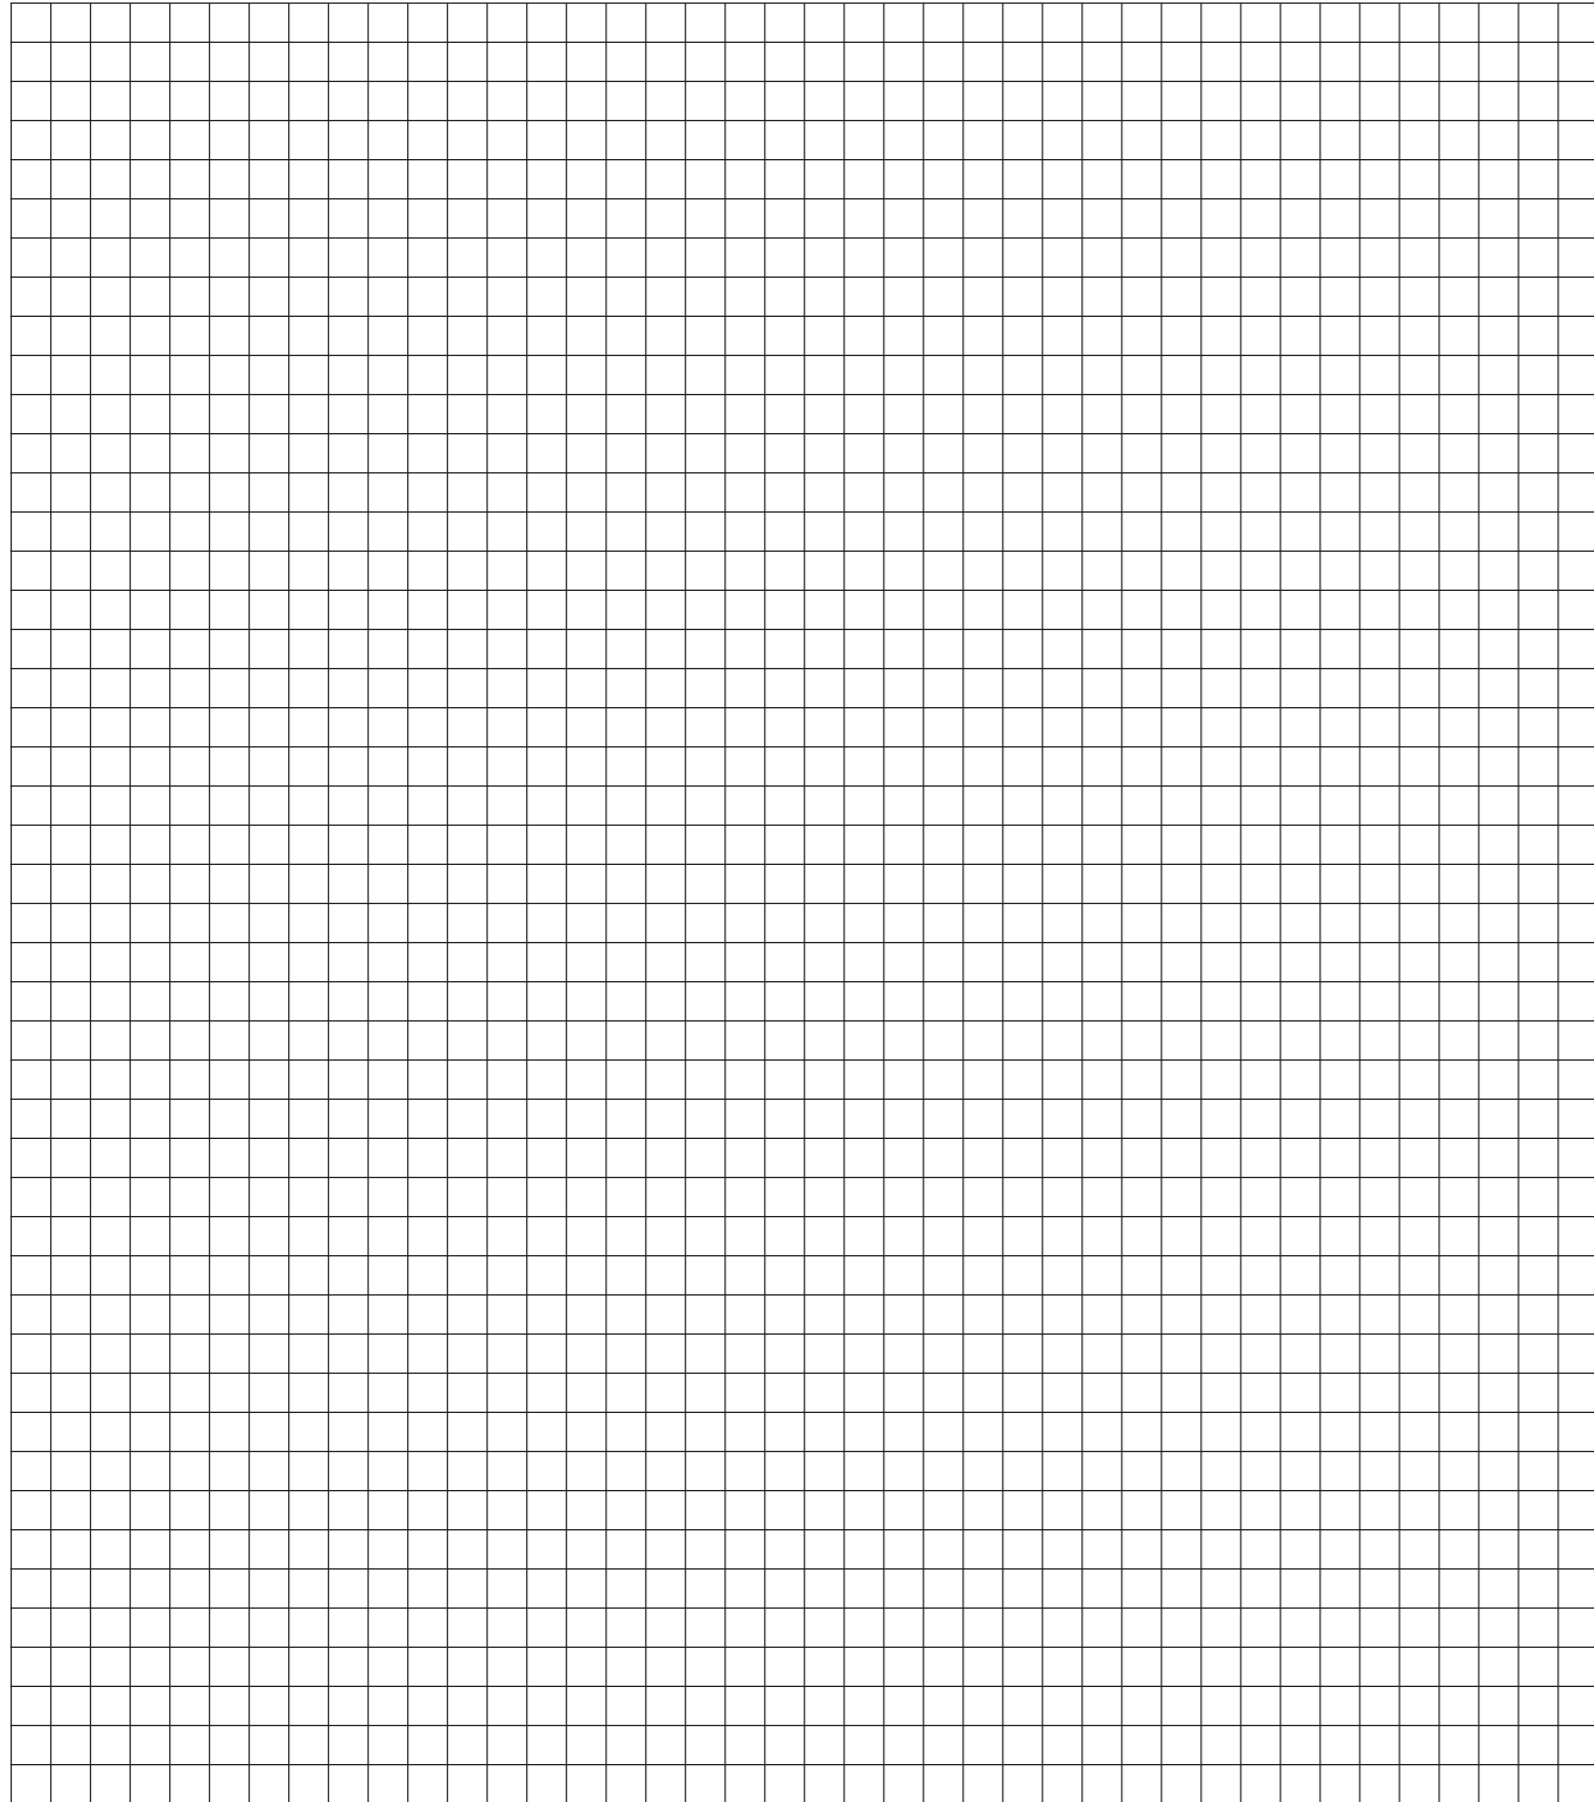

L'isola di lavoro è stata studiata per ampliare la strumentazione presente nella materioteca utilizzando un linguaggio professionale. Al suo interno sono presenti i profili principali dei sistemi giorno e notte, strumenti che aiutano la comprensione e le molteplici possibilità di composizione e progettazione dei sistemi MisuraEmme.

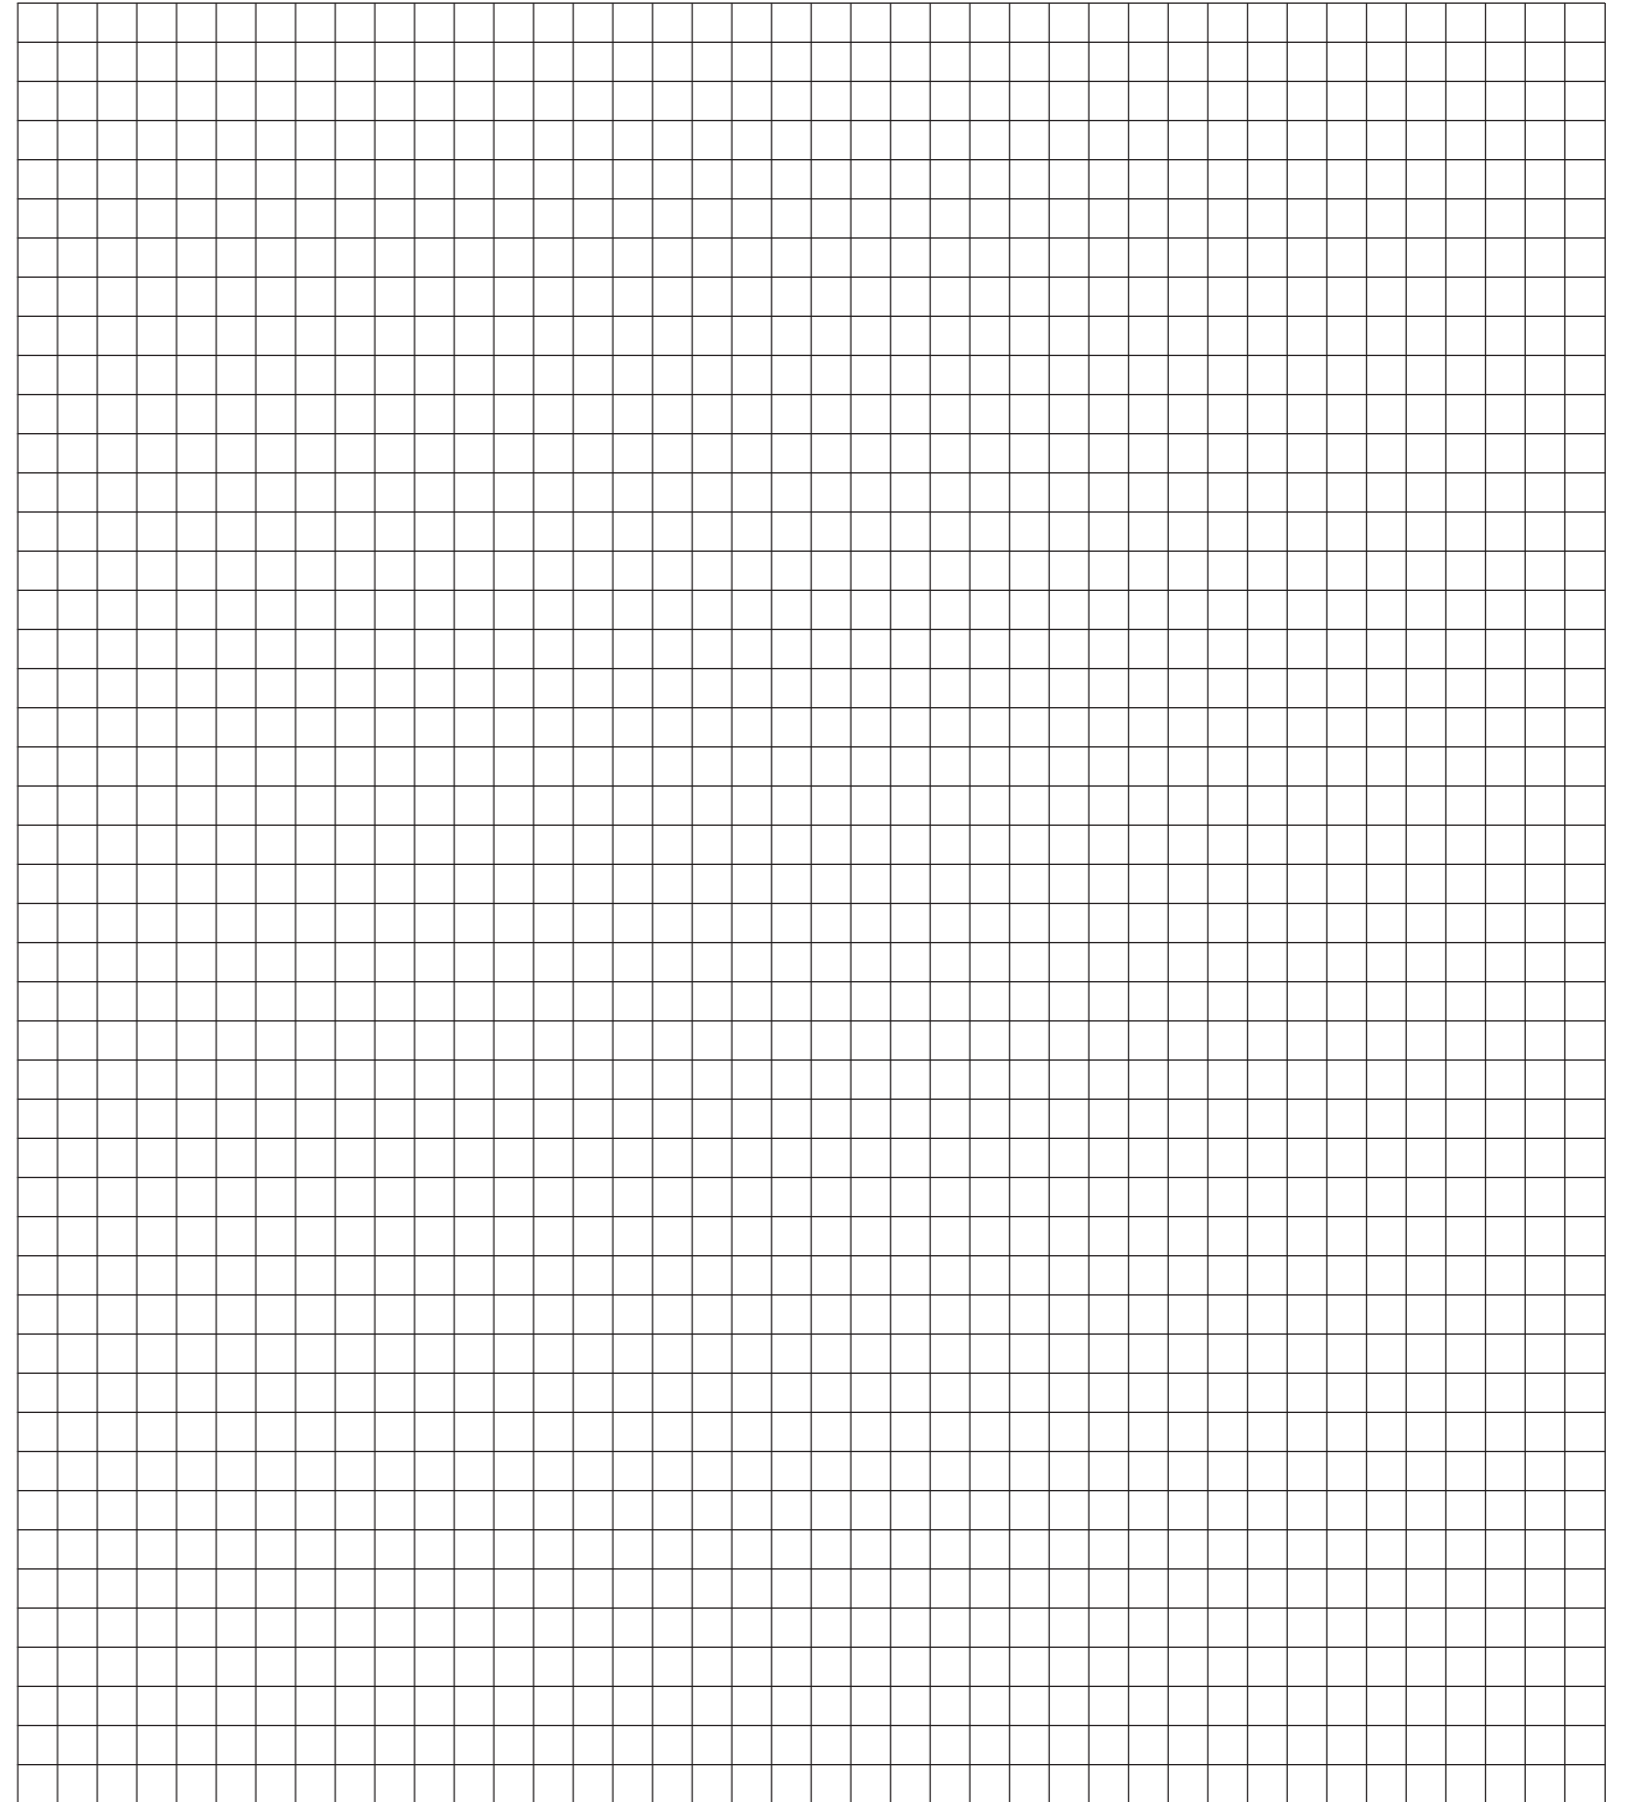

The „Freestanding workstation“ was designed to extend the equipment in the material library, using a professional language. It contains the main profiles of day and night systems, tools that help understanding and the many possibilities for composition and design of MisuraEmme systems.
